CAPE TOWN HELICOPTERS- Why Fly With Us?

We offer the biggest fleet in Cape Town – 9 x helicopters in total including an 8-seater Twin Engine AS365
We make use of Airbus*, Bell & Robinson Helicopters.
All helicopters include Bose noise cancelling headsets.
Our Airbus* helicopters offer cinema style seating and bigger glass cabins, resulting in excellent view opportunities from all seats, including the middle.
We offer eco-friendly flying*
For airport transfers, we have a private hanger at the airport with a lounge & reception area, along with a shuttle that is used to transport guests to and from the terminal

**Eco-Friendly Flying: Our Airbus 120/ 130 make use of the high-tech, enclosed "Fenestron" or "Fan in a Fin", which replaces the conventional tail rotor systems. These rotor systems are safer, quieter and use 25% less engine horsepower. These unevenly spaced blades allow for lower levels of noise output, below 60 decibels. This means that they are two of the few machines allowed to operate in eco-sensitive areas.*

CAPE TOWN HELICOPTERS TERMS & CONDITIONS

TERMS & CONDITIONS
1) Helicopters are weight limited and the following guidelines apply:
a. Robinson R44: Maximum weight per seat is 120kg and/ or an average of 90kg's across the three seats, at the pilot's discretion.
